

8121.1-R OPIOID OVERDOSE PREVENTION REGULATON

The medical director/school district physician shall develop procedures for the placement, storage, inventory, re-ordering, administration documentation, reporting, and training of the school nurse, regarding the use of naloxone.

The district shall ensure that there is always one backup naloxone kit for each kit that is ready to be used per building. When a naloxone kit is used, another backup kit will be ordered. Naloxone that is nearing its expiration date will be replaced. The school nurse shall maintain a log of naloxone supplies containing the following information: lot number, date of receipt, expiration date, and location. The school nurse shall perform an inventory check of naloxone supplies monthly.

School nurses shall follow the non-patient specific order and written protocol for administration of naloxone, which includes criteria for assessment and directions for administration. School nurses shall review the order and protocol as needed to maintain an appropriate skill level.

School nurses shall document all administration of naloxone in the same manner as the administration of other medications under non-patient specific orders. School nurses shall report all administration of naloxone to the school physician/medical director, Building Principal and Superintendent.

Adopted: March 14, 2023
